Q: 5 What would be the duration of the program?

The 3- year full time program consists of six Semesters, each semester being of six month duration. The first semester mainly comprises subjects related to general management, which would provide insights into managerial concepts.

Q: 6 What would be the structure of the program?

The course curriculum has been designed in consultation with our industry experts and academic experts. The classroom training is supplemented by guest lectures by specialists, industrial visits, Industrial Internship after each semester projects, assignment case study. Other co-curricular & extra co-curricular activities and clubs.

Also offer CBCS courses for each semester where the student is allowed to choose subjects from a wide variety of subjects with different discipline.

Q: 7 Which degree will be awarded after completion of the program?

After completion of the program, degree will be allotted on convocation event. The degree certificate will mention the specialization.

Q: 8 How is GSFC University BBA program different from the other universities?

The Course is focused on developing industry ready students by giving them maximum exposure to the practical aspects of the corporate sector. During the

course in each semester students go for internship where they are exposed to various disciplines.

Q: 9 How is GSFC University providing industrial exposure to students?

A four pillar approach is adopted so that application of theoretical knowledge in day-to-day working of the organizations / industries is practised. First pillar is e-enabled virtual labs, where students grapple with various aspects of virtual instruments and carry our experiments number of times and understand 'why' of theory. Second pillar is physical labs where students perform experiments in laboratories with real fluids and lab model equipment. Third pillar is their exposure to plant and machineries, where complete understanding of theories thought to them in classrooms can be applied to industry. Fourth pillar is 4six months of internship during course, where he is expected to deep dive and understand the plant and machinery, processes etc.

Q:10 What about the student's extra-curricular activities?

Students Managed Clubs (SMC) promotes the culture of active participative learning and provides a firm platform to the students for sharing their innovative ideas. Various clubs includes activities that promote social responsibility, civic engagement, industrial understanding, projects management, meticulous documentation and project execution with a purpose to train and develop human capital. The concept of initiating Students Managed Clubs (SMC) is an integral part of GSFC University to encourage active participation of students and thereby promote healthy competition.
