1. Starter cultures and their indispensable role in the dairy industry
Authors: Dr. Amit Kumar Barman
Pages: 01-03
2. Betula utilis in complementary medicine: Biological, pharmacological and anticancer significance
Authors: Hardeep Kumar, Rajesh Kumar, Younis Ahmad Hajam
Pages: 04-15
3. Appraisal on the impact of waste rose petals containing spirulina feeds on the growth performance of black molly fish
Authors: Surbhi Patel, Dr. Kapila Manoj
Pages: 16-18
4. Whole-genome analysis of Staphylococcus aureus and characterization of its infectious nature as wound infections
Authors: A Ananth, A Uma devi, S Rajan
Pages: 19-22
5. Blunt end ligation in molecular cloning
Authors: Taohsueh Liao
Pages: 23-25
6. The role and relevance of statistical significance in biological research
Authors: Dr. G Varalakshmi
Pages: 26-28
7. Morphometric and phylogenetic analyses of silver catfish (*Chrysichthys nigrodigitatus*) in the Niger Delta Region of Nigeria
Authors: Lawrence E Okonko, Charles M Alobi, Owoidi M Etukudo, Ekei V Ikpe, Michael O Ozoje

Review Article

- A review on ecology, distribution, phytochemistry, and pharmacological.....1-8
- Advancing in orphan crops through innovative breeding methods and.....9-19

Mini Review

- Monoclonal antibodies for diagnosis of viral diseases: a comprehensive review.....20-31

Research Article

- Sustainability analysis of the greenhouse tomato (*Solanum lycopersicum* L.)32-43
- Sustainable improvement of nutrition quality and biological activity.....44-54
- The role of gut microbiota in colon cancer caused by Ape mutation55-67
- Identification of Mango (*Mangifera indica* L.) cultivars in the Mekong68-75
- Mutualistic synergy between *Eudrilus eugeniae* gut microbiota and Beta76-82
- A simple approach to generate transgenic cell lines with high efficiency83-92
- Selection of new recombinant inbred lines and dual-purpose cowpea93-103
- Identification, antimicrobial activity, and mycochemicals of *Lentinus*104-112
- Decolorization of selected industrial synthetic dyes using laccase from113-121
- Spatiotemporal proteome expression during banana fruit development122-135
- Heavy metal content in agricultural soils around an industrial city and136-145
- Screening and statistical optimization of anti-cancer L-methionase146-155
- Evaluating LDH and BUDB gene knockouts in *Klebsiella pneumoniae* for156-165
- Boosting agronomic traits and enhancing water use efficiency in rice166-172
- Biocontrol of *Phytophthora infestans*-induced late blight using *Bacillus*173-180
- Characterization and gene mining of BAC resource of *Clarias magur* for181-192
- An integrated in silico prediction and In vivo approach identifies NF- κ B193-205

APPLICATIONS

52 Amino Acid Sequencing of Synthetic Peptides using Shimadzu MALDI-TOF Mass Spectrometer and Protein Sequencer
56 Simultaneous Analysis of CHO Cell Culture Supernatant Components using Shimadzu LCMS-2050 Single Quadrupole Mass Spectrometer
60 Monitoring Cell Culture Media Variability using Horiba Veloci BioPharma Analyzer
64 Monitoring Compound-related Cytotoxic Effects through ATPite 1step Luminescence Assay using Revvity VICTOR Nivo Multimode Plate Reader
70 High-Resolution Analysis of AAV8 Vectors using Postnova Multi-Detector AF4 System
72 Unlocking Insights in Tumour Microenvironment through Spatial Transcriptomic Analysis using Vizgen MERSCOPE Ultra™ Platform
78 Quantification of Mitochondrial Membrane Potential using CurioSis Celloger® Pro, Automated Live Cell Imaging System
80 Determination of Cell Count and Viability of Aggregated Mammalian Cells using ChemoMetec NucleoCounter® NC-202™ Automated Cell Counter

SPOTLIGHTS

84 Dual Polarity Benchtop Linear MALDI-TOF, MALDI-8030
86 High-throughput, Real-time PCR Platform, N6Tech iconPCR™
87 Proteomics at the Push of a Button, ARGOTM HT System
88 Mass Photometer for AAV Characterization, SamuxMP
90 Next-Gen Single-Molecular Protein Sequencing™, Platinum® Pro
91 Accurate Long-Read Sequencing at Scale, Revio™ System
